## **Long Term Care Educator Francisco Ramirez Joins the 3in4 Association**

Round Lake Park, IL, 5-1-2014, Today- Francisco Ramirez, a long-term care educator, announced his commitment to long term care education by joining the 3in4 Association <http://www.3in4needmore.com>.

With this slogan, the group seeks to educate the public on an important fact: that at least 70 percent (roughly 3 in 4) of people over age 65 will require some long-term care services at some point in their lives, according to a statement from the U.S. Department of Health and Human Services (<http://www.longtermcare.gov>).

In spite of the widespread and growing need for long term care planning, a fraction of those who could benefit from a plan have taken action. The group seeks to make the public aware of the high odds of requiring extended care and the imperative to plan in advance.
